

Communications Committee

The committee, composed by Kensuke JOH, Suzanne Meleg-Smith (chair) and Luis Moura, maintains and expands communication inside the RPS.

To share information with all members, E-mails to the RPS membership are disseminated upon request

All important information is posted on the web-site, to include membership data and “yellow pages”, surveys, collaborative studies, hot news, schedules, case presentations, etc... The contents of the website are continuously updated. The 11,000 hits of the website during the last 12 months show the importance that this communications tool has acquired for RPS members.

Communications of the RPS with others are enhanced by links with other websites, increasing the presence of the RPS and giving easy access to those interested in our activities.
