

Charleston, West Virginia (USA)

EMPLOYMENT OPPORTUNITY – Renal Pathologist

Charleston Area Medical Center is seeking to employ a full-time AP/CP board certified pathologist with fellowship training in Renal Pathology.

Successful candidates (MD or DO) must be BE/BC and eligible for an unrestricted West Virginia license. Excellent diagnostic skills and a strong clinical background are a must. Outstanding communication and interpersonal skills are desired. Recent graduates are encouraged to apply.

The practice consists of twelve full-time pathologists with many subspecialty areas represented. The department annually processes more than 2.4 million clinical tests, with 35,000 surgical cases and 24,000 cytology studies.

As West Virginia's largest city, picturesque Charleston offers both urban amenities and abundant outdoor activities. Exemplary school systems and low cost of living make this an ideal location to raise your family.
